Singles:

-At the beginning of the game (0-0) and when the server's score is even, the server serves from the right service court. When the server's score is odd, the server serves from the left service court.

-If the server wins a rally, the server scores a point and then serves again from the alternate service court.

-If the receiver wins a rally, the receiver scores a point and becomes the new server. They serve from the appropriate service court – left if their score is odd, and right if it is even.

Doubles:

-A side has only one 'service'.

-The service passes consecutively to the players as shown in the diagram.

-At the beginning of the game and when the score is even, the server serves from the right service court. When it is odd, the server serves from the left court.

-If the serving side wins a rally, the serving side scores a point and the same server serves again from the alternate service court.

-If the receiving side wins a rally, the receiving side scores a point. The receiving side becomes the new serving side.

-The players do not change their respective service courts until they win a point when their side is serving.
